Dear Valued Customer:

Continental Computer wants to take this opportunity to thank you for your confidence in our company. As a token of our appreciation of your continued confidence we want to take a minute and inform you of an important upcoming change.

Enclosed you will find a notice published by Sage Software regarding Peachtree accounting software. The notice very clearly informs Peachtree users Sage will no longer be supporting non-current versions as of 11/30/2012.

As a result of the above defined change, All Continental Computer products will cease to function with Peachtree versions not defined as "Sage 50 Peachtree 2013" effective 11/30/2012. Though the change is not initiated by Continental Computer we recognize the importance and potential impact this change may have on your organization.

Anticipated future changes as this necessitate Continental Computer only maintain exports to current versions of third party software. Continental Computer can no longer address issues concerning out dated versions of any third party software.

Please feel free to contact your respective Sales Representative for a detailed explanation and evaluation of your particular office needs. Any question can be addressed by calling our toll free number 800-240-1016 from 8:00 a.m. to 5:00 p.m. Monday thru Friday C.S.T.

Thank you for choosing Continental Computer as your solution provider.

Sincerely,

Wes Johnson
President/CEO
Continental Computer

IMPORTANT NOTICE FOR CUSTOMERS USING PEACHTREE BY SAGE 2010

In order to provide the highest quality products and services to the majority of our customers, we design our solutions to be compatible with the latest releases of our software.

Unfortunately, this means that we have to designate older releases as "unsupported." And this will be the case with your release as of 11/30/12. In addition, Sage 50 Payroll Solutions (the new name for Sage Peachtree Payroll Solutions like Sage Peachtree Simple Payroll and Sage Peachtree Select Payroll) will no longer be available for your release after that date.

This makes it more important than ever to upgrade your accounting software now. After all, you rely on your Peachtree software for everything from invoicing to inventory, from customer service to quotes and estimates, from closing a deal to collecting your payments. When something is that vital to your business, it's crucial that you keep it up-to-date—especially since you'll lose the ability to receive payroll tax updates in the future unless you do.

Upgrading now will bring all the exciting new features we're introducing with the latest release, now called Sage 50 Release 2013. It will also bring you the extensive array of capabilities introduced in the last two releases. And upgrading will give you continued access to Sage 50 Support and valuable integrated products and services like your payroll tax updates.

In addition, you'll lock in pre-release pricing if you confirm your upgrade order now.

SERVICES THAT WILL NO LONGER BE AVAILABLE FOR YOUR VERSION OF PEACHTREE include, but are not limited to: all Sage 50 Payroll Solutions and all Customer Support (including pay-per-call support).¹

We invite you to use Sage 50 Accounting 2013 entirely without risk.

When you receive your upgrade to Sage 50 Release 2013, see for yourself how useful the new features are. If you don't think this upgrade will save you time every day, return the product within 30 days of the ship date for a full refund of the purchase price.

In fact, if you're not happy with your upgrade for any reason, return it for a refund—no questions asked.

(1) Additional fees apply for these services. Your Sage Peachtree Simple Payroll or Sage Peachtree Select Payroll subscription, and any annual Customer Support plan you may have will remain in effect until their expiration dates, but renewal will not be available after 11/30/12 unless you upgrade.

Important Note Regarding Payroll Tax Tables: When upgrading to Sage 50 Accounting 2013 from Sage Peachtree 2012 and earlier versions, you will no longer be able to manually manipulate the tax tables within Sage 50. You will now be required to have a Sage 50 Payroll Solution or Sage Business Care Gold or Platinum subscription in order for your Sage 50 solution to calculate taxes, benefits and liabilities on payroll checks. In addition, a subscription will be required to access payroll tax forms and to use the Exception Payroll Tax, Tax Liability, Vacation and Sick reports or any custom reports based on these reports. Without a subscription, you will only be able to manually enter the tax, benefit and liability amounts on payroll checks and run payroll reports not previously listed.
